# DEVI ADI NUFRIANA

## SOFTWARE ENGINEER

### PERSONAL PROFILE

I am an IT project manager with holistic knowledge of software development. I am also experienced in coordinating with stakeholders.

### WORK EXPERIENCE

#### Software Engineer at BRI Life

Greater Jakarta Area, Indonesia | Feb 2019 - Mar 2021

#### Software Engginer at Frisedia

Aston Pluit Hotel & Residence, Jakarta | April 2021 - present

### JOB DESCRIPTION

- analyze user requirements
- write and test code, refining and rewriting it as necessary, and communicate with any programmers involved in the project
- research, design and write new software programs (e.g. business applications) and computer operating systems
- develop existing programs by analyzing and identifying areas for modification
- integrate existing software products and get incompatible platforms to work together
- maintain systems by monitoring and correcting software defects
- work closely with other staff, such as project managers, graphic artists, UX designers, other developers, systems analysts, and sales and marketing professionals
- consult clients and colleagues concerning the maintenance and performance of software systems, with a view to writing or modifying current operating systems
- investigate new technologies
- continually update technical knowledge and skills by attending in-house and external courses, reading manuals, and accessing new applications.
